

Create a Graph Template

Tech Tips – IBM SPSS Statistics

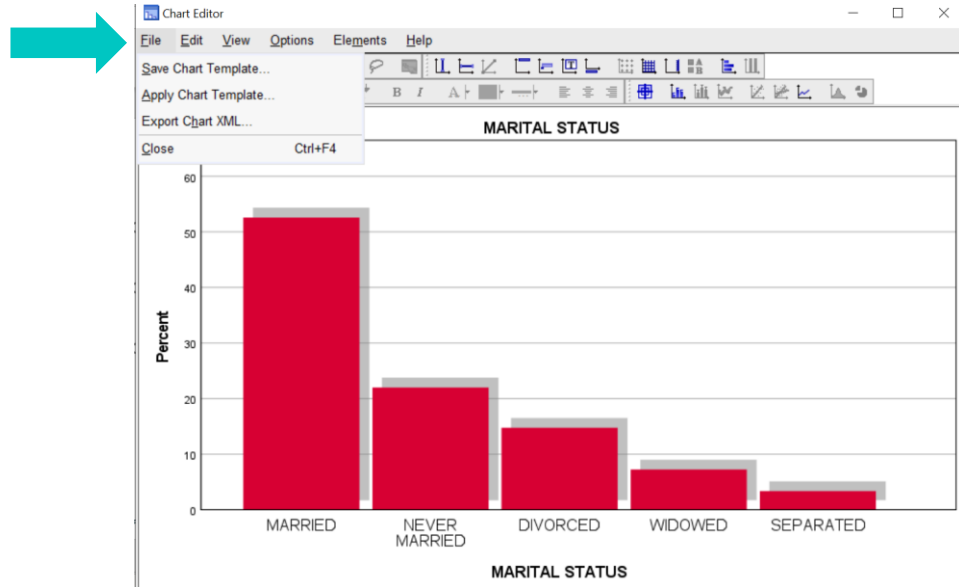

Tech Tips – Create a Graph Template

- ***Did you know that there is an easy way to create a custom template for your graphs in Statistics?***
- Below we adjusted the appearance of the graph in our output. This can be saved and applied to other charts.

Tech Tips – Create a Graph Template

- Double click on the graph you want to use as a template to open it. Click on the **File** menu and select **Save Chart Template**. Select settings to save and click **Continue**. Select location to save the new template and name it. Click on **Save**.

Please select the settings that you want to save in the template.

- Layout
 - Chart size
 - Text, data, and other frames
 - Orientation
- Text content
 - Chart titles
 - X-axis title
 - Y-axis title
- Styles
 - Text formatting
 - Non-data element styles
 - Data element styles
- Axes
 - Scale axes
 - Category axes

Buttons: Continue, Reset, Cancel, Help, Expand All

Description of Template: You may enter a brief description of the template.

Look in: Looks

Academic.stt	BlueYellowContrastAlternate.stt	Cobalt
AnalyticsPlatform.stt	Bright.sgt	Compa
APA_SansSerif_10pt.stt	chart_style.sgt	Compa
APA_Styles.sgt	Classic.stt	Contra
APA_TimesRoma_12pt.stt	ClassicAlternate.stt	Contra
Blue.stt	Cobalt.stt	default
BlueYellowContrast.stt	CobaltAlternate.stt	Easter

File name: new template

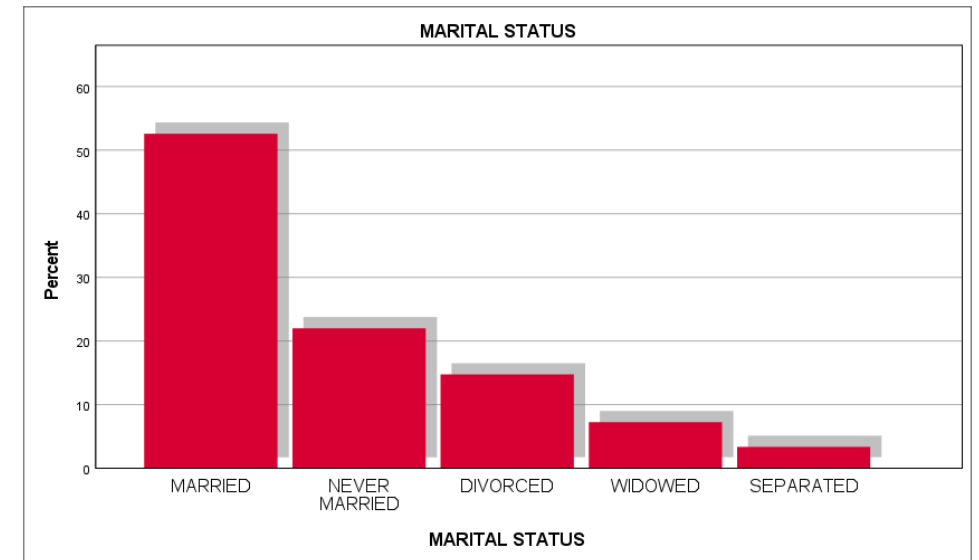

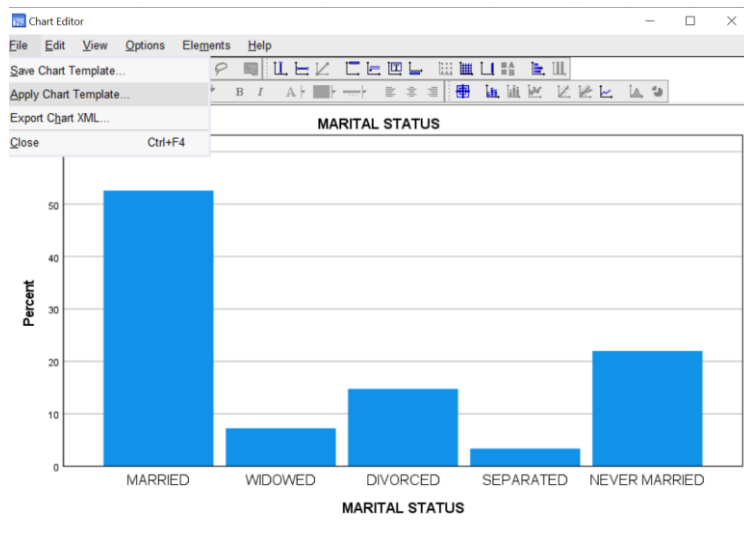

Files of type: All Files (*.*)

Buttons: Save, Cancel

Store File To Repository...

Tech Tips – Create a Graph Template

- To apply the new template, select the graph to change. Double click to open it. Select **File** and **Apply Chart Template**. Browse to the location of the template and click **Open**. The new template will be applied - it's that easy!

Thank You
